DEVITA COSMO

THE PRINCIPLE OF OPERATION OF THE QUANT UNIT

Quantum therapy is the effect of light and color on biologically important points in the human body. Light, as a physical factor, consists of a large number of waves of different frequencies. Thus, each color has its own frequency.

Each frequency affects the human organism in its own way. For effective treatment of any disease, multiple frequencies and colors of light should be applied to specific areas of the skin. Light waves are directed onto these zones, adjusting energy flows within the human body.

THE PRINCIPLE OF OPERATION OF THE QUANT UNIT

The key factor is the wavelength of the radiation emitted. For therapeutic purposes, affordable LEDs have been created that emit red light (660 nm), green light ($525\pm\text{ nm}$), blue light ($468\pm\text{ nm}$), yellow light (590 nm), and infrared radiation ($880\pm\text{ nm}$). The effect produced is similar to laser therapy. The technological advantages of this approach according to the developers of the equipment and application methods:

- significant reduction in the dosages of prescribed pharmaceuticals;
- a 2-3 times shorter rehabilitation period;
- no side effects, non-invasiveness, and environmental safety.

THE PRINCIPLE OF OPERATION OF THE QUANT UNIT

Recommended areas of application depending on the wavelength: red light with a wavelength of ~ 660 nm is used for vasodilation and restoring blood flow; green light with a wavelength of ~ 525 nm is used for dermatological issues; blue light with a wavelength of ~ 468 nm is used for purulent and infected wounds, yellow light with wavelength ~ 590 nm is used for soothing and anti-redness and the near infrared light with wavelength 840-959 nm is used in physiotherapy and sports medicine for deep repair & pain relief.

Results from the electromagnetic device are usually evident after 3-5 sessions, with each session involving five minutes for each frequency. For chronic problems, noticeable improvements typically occur after 10-20 sessions, with daily durations of 10 to 30 minutes.

DEVITA COSMO

BEAUTY AND YOUTH

This is a unique device to conduct cosmetic procedures by your own. Revolutionary approach to solving skin problems and a person exterior. The device ensures high efficiency due to simultaneous action of light quantum on nerve terminals and electromagnetic revitalizing action on a body organs and systems.

Beauty and rejuvenation impact is based upon bioresonance method and reverse-reflex action of quantum radiation.

EFFECTIVE. HARMLESS. PHYSIOLOGICAL. EASY-TO-USE.
